## Hardwearing Cushion Tread Commercial Matting

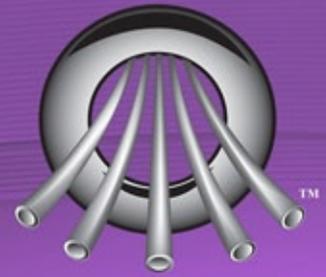

## Heronair.....

- \* Reduces fatigue from standing on hard floors
- \* Extremely hard wearing and easy to clean
- \* Alcohol, chemical, oil and acid resistant
- \* Prevents glass breakages and improves safety
- \* Excellent slip resistance and open grid design allows liquid to flow through
- \* Suitable for use in the marine industry
- \* UV Resistant
- \* Made from 100% recyclable food grade materials

The cushion comfort mat

get flexi in mats

Heronair is designed and manufactured from extremely strong and hard wearing non toxic food grade PVC. Heronair's tubular top surface and underbars are designed to create maximum cushion comfort underfoot. Its slip resistant surface constructed in grid formation make it an ideal working surface where water and other liquids are present.

When you're busy, the last thing you want to have to do is to stop to clear up a spillage or a broken glass or bottle. Heronair's cushioned tread not only reduces breakages but it raises people slightly above floor level, so any spillage will drain through where it can be cleaned later.

Available in roll lengths up to 30 metres in 60, 75, 91 or 122cm wide, in a range of attractive colours. Heronair does not absorb water or other liquids and it offers insulation from cold or damp floors. It is quick and easy to fit, even into awkwardly shaped areas. It is also chemical, oil, alcohol and flame resistant.

Sizes & Weights	Length	Height	Width	Weight
Tolerance	+/- 0.015	+/- 0.5	+/-0.1	
All dimensions nominal	Metres	mm	cm	kg/m <sup>2</sup>
Rolls	10 - 30	9.5	60,75,91,122	4.0

<b>Standard Colours</b>	Grey,Blue,Black,Green,Red,Aqua,Lavender. Others on request		
<b>Composition</b>	100%Flexible low toxicity PVC Phenol free and classified according to AS2070-1999 and CFR21 as suitable for food contact.		
<b>Construction</b>	Open grid. Tubular profile 28mm x 5mm grid size.		
<b>Flammability</b>	Classified as resistant to flame DIN 4102 part 1 Classification B2 Limiting Oxygen index 20. Self extinguishing		
<b>Chemical</b>	Resistant to alcohols,aliphatic hydrocarbons, most oils and acids		
<b>Electrical</b>	Dielectric Strength Kv/11 Volume resistivity $\Omega\text{-cm } 1.2 \times 10^{13}$		
<b>Thermal</b>	Functional -12° to +60°C		
<b>Ultra Violet Light</b>	Resistant to PVC degradation (Red not colourfast in direct sunlight)		
<b>Slip Resistance</b>	Coefficient of friction ( $\mu$ ) Dry $\text{Tan } \phi = \mu 0.674$ Coefficient of friction ( $\mu$ ) Wet $\text{Tan } \phi = \mu 0.604$		
<b>Additional Benefits</b>	Good sound insulation properties		
<b>Impact Resistance</b>	At -12 degrees 1.5kg at 200mm		
<b>Ancillaries</b>	25mm wide Black Flexi-Edge Factory or DIY fitted Connector Clips, Floor Hooks		

Slip resistance can vary with different shoe and sole types and in different conditions
