

Ply Insertion Grip Rubber Mat Roll

Description

Our versatile and durable Ply Insertion Grip Rubber Mat is reinforced with a ply-net cloth to improve tear strength and stability. This mat provides a textured anti-slip surface with anti-fatigue properties to protect livestock from fatigue and injury caused by prolonged standing on hard surfaces.

Key Features and Benefits:

- Woven cloth insert for added tensile strength
- Textured surface
- Long length to reduce joins
- Easy to clean
- Its non-porous surface will not absorb or retain moisture and will not encourage bacterial or fungal growth
- 3 year lifespan based on normal use and condition
- Also available by Made to Measure

Hardness: 65A + 5 Shore A

Density: 1.4g/cm³

Tensile Strength: 5 Mpa

Perfect for:

Horse Floats Breezeways Walkways Stable Wall Lining Vet Rooms Wash Bays Ute Truck trays

Benefits

Slip Resistance, Anti Fatigue, Suitable for wet areas, Hi Traffic, Outdoor Suitable, Suitable for Dry Areas
