

Bubble Mat - Solid

More than a mat - this is a fatigue management solution for your workers.

Description

The Bubble Mat Anti-Fatigue Matting from Mat World aids workers who have to stand for extended periods of time, by addressing foot, leg and back fatigue. The gently bubbled surface of this mat is comprised of miniature, ball-like moulded rubber cups that respond to even the most minute body movement and pressure. In doing so, it promotes subtle foot and lower leg movements to counterbalance these body movements. This subtle yet critical action helps circulate blood from the feet back towards the heart, thereby preventing instances of severe fatigue.

KEY FEATURES:

- Great for any wet or dry workplace where workers are constantly stationary and on their feet.
